EDUCATION

Faculty of Automatic Control and Computer Science (UPB) 2024 – Present
Bachelor of Engineering in Systems Engineering Bucharest

EXPERIENCE

BRAT – Biroul Român de Audit Transmedia Mar 2026 – Jun 2026
Data Scientist (Contractor)

- Built an ML price estimator for influencer campaigns, achieving a 90% accuracy metric by combining Isolation Forest outlier filtration with a semi-supervised Random Forest/XGBoost pipeline.

Faculty of Automatic Control and Computers (UPB) Oct 2025 – Jun 2026
Teaching Assistant (DSA & Programming) Bucharest

- Led laboratory sections for Data Structures & Algorithms, covering data structures, algorithm design, and complexity analysis.
- Instructed 120+ students in C, covering low-level programming, memory management, compiler optimizations and operating system concepts.

HBFS Robotics Jan 2025 – Jun 2025
Robotics & Software Engineer

- Developed a smart home IoT system featuring an array of sensors and actuators controlled by a distributed network of STM microcontrollers.
- Architected a Spring Boot backend with Python microservices to bridge communication between the low-level IoT hardware and the web interface.

PROJECTS

Alconomy – Event-Driven Multi-Agent Freelancing Marketplace  [a1conomy.github.io](https://github.com/a1conomy)

- Engineered a distributed simulation where Python agents autonomously negotiate and execute subcontracts via Kafka event loops, integrating Ollama and Gemini APIs for local decision-making.
- Architected a Gradle multi-module transaction ledger using Spring Boot and PostgreSQL to guarantee strict ACID transfers and escrow states, backed by automated GitHub Actions CI.

TECHNICAL SKILLS

Hard skills: C/C++, Java, Spring Boot, Kafka, Docker, Git, Linux, SQL, ARM Cortex-M, Agent Development (LangGraph/LangChain), RAG, Machine Learning (ML), Optimization Theory, Statistics, MATLAB, Elixir
Languages: Romanian (Native), English (Proficient)

AWARDS & CERTIFICATIONS

- **ARM Summer School (2025):** Selected by Google & NXP for advanced training in embedded development.
- **Certifications:** MATLAB (Mathematical Modeling, Statistics, and Optimization), Spring Framework in Depth, Oracle Database Design, Elixir summer school 2026
